

# Subject Index to Volume 34

## A

- A-23187**  
regulation of bile acid uptake in hamster hepatocytes, G1084
- Acetylcholine**  
release from enteric nerves, regulation, G904
- Acinar cells**  
lacrimal gland, Rab3D localization to, G531  
pancreatic  
action of cholecystokinin on, G1  
Rab3D localization to zymogen granules in, G531  
vacuolation, in secretagogue-induced pancreatitis, G20  
parotid gland, Rab3D localization to, G531
- Actin**  
distribution, in gastric healing, G893
- Action potentials**  
in small intestine of W mutant mice, G387
- Activator proteins**  
AP-1  
and cAMP-associated changes in hepatocyte proliferation, G780  
gastrin promoter regulation and, G942
- Adenosine 3',5'-cyclic monophosphate**  
and MAP kinases, in hepatocytes, G780
- Adenosine receptors**  
A<sub>2</sub>, mediation of ethanol-induced arteriolar dilation in stomach, G1028
- Adenylate cyclase**  
activation  
by histamine H<sub>2</sub> receptors, signal transduction for, G613  
and PACAP-stimulated cholecystokinin secretion, G516
- $\alpha$ -Adrenergic receptors**  
 $\alpha_{1b}$ , in small mesenteric arteries, hypoxia-reoxygenation and, G820  
central nervous system, and duodenal bicarbonate secretion, G831
- Aging**  
retardation of, in calorie-restricted rodents, G192
- Alcohol dehydrogenase**  
activity, in rat gastric tissue, G1028
- Alkaline phosphatase**  
hepatic, membrane-bound, hydrolysis by GPI-PLD, G655
- Allergy**  
food, and protein transport through intestinal barrier, G147
- Amino acids**  
intestinal transport of, in aged calorie-restricted mice, G192  
luminal, effects on gut mucosal growth, G164
- Amylase**  
pancreatic, in secretagogue-induced pancreatitis, G20
- Anion exchanger**  
AE2  
in gastric parietal cells, bicarbonate-dependent conformational change, G311

- regulation, during intestinal development, G330
- Anion transport**, *see* **Organic anion transport**
- Antioxidants**  
protective effects against hypoxia/reoxygenation-induced vascular contractile dysfunction, G820
- Apopoprotein**  
A-IV  
gene expression, in small intestinal adaptation after resection, G347  
intestinal, effect of lipid administration on, G322  
and satiation after lipid meal, G438  
B, intestinal, effect of lipid administration on, G322  
secretion, by newborn piglet intestinal cell line, G249
- Apoptosis**  
induced by reoxygenation of hypoxic hepatocytes, ICE proteases in, G949
- Arterioles**  
gastrointestinal submucosal, functional innervation of, G223
- Asparagine**  
and ornithine decarboxylase gene expression, in intestinal epithelial cells, G164
- ATP7B ATPase**  
copper binding, in Wilson disease, G741
- Autonomic nervous system**  
ganglia, actions of calcitonin gene-related peptide on, in guinea pig gallbladder, G876
- Autoregulation**  
nitric oxide attenuation of, in superior mesenteric artery, G400
- Axon reflex**  
in guinea pig gallbladder, G876

## B

- Basolateral membrane**  
of oxyntopeptic cells, chloride-independent HCO<sub>3</sub><sup>-</sup> transport in, G1096
- Bicarbonate**  
duodenal secretion of, central adrenoceptors and, G831  
induction of conformational change in gastric AE2 anion exchanger, G311
- Bicarbonate/short-chain fatty acid exchanger**  
and *n*-butyrate transport across human colonic luminal membrane, G415
- Bile**  
nitric oxide and glutathione metabolism in, effects of endotoxin on, G575  
secretion, cytosolic calcium signaling pathways in rat bile duct epithelia and, G86
- Bile acids**  
activation of hepatocellular protein kinase C, G293  
transport, in liver, effect of endotoxin on, in rat, G137  
uptake in hamster hepatocytes, regulation by calcium-mobilizing agents, G1084

## Bile acid transporters

- in sepsis-associated cholestasis, G137  
sodium-dependent  
alterations in ethinyl estradiol cholestasis, G1043  
ontogeny in rat kidney and ileum, comparative analysis of, G377
- Bile ducts**  
epithelial cells, cell volume regulation in, G239  
epithelium, calcium signaling in, G86
- Bile-pancreatic juice**  
in small intestine, and negative feedback control of pancreatic secretion, G501
- Bile salts**  
absorption, after ileal transposition into upper jejunum, in rats, G681  
cytotoxicity, in gallbladder epithelial cells, G410  
in hydrolysis of membrane-bound liver alkaline phosphatase by GPI-PLD, G655
- Biliary tract**  
intestinal-phase physiology, in humans, G824
- BK channels**, *see* **Potassium channels, calcium-activated, large-conductance**
- Blood flow**  
*see also* **Autoregulation; Microcirculation**  
enterohepatic, and cholesterol 7 $\alpha$ -hydroxylase regulation in liver, G293  
gastric mucosal, cholecystokinin-induced augmentation of, G692  
gastrointestinal  
in fetus, nitric oxide and, G598  
mucosal, neural reflexes controlling, G223  
mesenteric arterial  
hypoxia/reoxygenation-induced contractile dysfunction in, G820  
nitric oxide and, G400  
portal, vascular control in, stress response and, functional link between, G929
- Blood vessels**  
small mesenteric arteries, hypoxia/reoxygenation-induced contractile dysfunction in, G820
- Brush-border membrane**  
transport function, luminal epidermal growth factor and, G509
- Butyrate**  
transport, human colonic, G415

## C

- Calcitonin gene-related peptide**  
effects on gallbladder neurons, G876  
in gastric mucosa, G1017
- Calcium channels**  
*see also* **Calcium currents**  
in myogenic and neurogenic activities of canine ileum circular muscle, G1053

**Calcium currents**

see also **Calcium channels**

decreased, in nongenomic progestin effects on intestinal smooth muscle cells, G370

**Calcium ions**

and chloride permeability in human biliary cell line, G304  
cytosolic, signaling pathways in rat bile duct epithelia, G86

**intracellular**

in gastric mucous cells, effect of EGF and insulin on, G104  
in Kupfer cells, in endotoxic shock, G97  
in myogenic and neurogenic activities of canine ileum circular muscle, G1053  
in LPS-stimulated TNF- $\alpha$  release by rat Kupffer cells, G920  
in regulation of VIP release from enteric synaptosomes, G568  
signaling, in rat bile duct epithelia, G86

**Capsaicin**

effects on gastric mucosal resistance, G1017  
neural circuits sensitive to and cholecystokinin-induced gastric protection, G692  
and regulation of intestinal microcirculation, G223

**Carbachol**

activation of intracellular signaling pathways in gastric parietal cells, G640  
and macromolecular uptake in rat ileum, G147

**Carbohydrazes**

expression in Caco-2 cells, developmental regulation, G707

**Cation channels**

in rabbit duodenal smooth muscle, motilin agonist activity and, G1003

**Cell differentiation**

in gut, cell cycle protein suppression and p21 induction in, G722

**Cell migration**

rat intestinal epithelial cell, stimulation by PLA<sub>2</sub>, G664  
in restitution, G729, G893

**Cell swelling, see Cell volume****Cell volume**

regulation in human biliary cell line, G239  
see also **Regulatory volume decrease**

**Chief cells**

gastric, Rab3D localization to, G531

**Chloride/bicarbonate exchanger AE2**

in gastric parietal cells, bicarbonate-dependent conformational change, G311  
regulation, during intestinal development, G330

**Chloride channels**

see also **Chloride currents**

calcium-activated, in human biliary cell line, G304

**Chloride currents**

see also **Chloride channels**

swelling-activated, in human biliary cell line, G239

**Chloride ions**

conductance, in *Necturus* oxyntopeptic cells, G1096  
secretion in human colon, induction by TNF- $\alpha$ , G669

**Cholecystokinin**

action on pancreatic secretion, physiological mechanisms of, G1  
analogues, structural requirements, to differentiate second messengers and pancreatic secretion, G8  
and gastric emptying, G448  
and intestinal-phase gallbladder physiology in humans, G824  
and jejunal transepithelial hexose transport, in Sprague-Dawley rat, G755  
and pancreatic secretion, G501  
protective effect in gastric mucosa, G692  
secretion in STC-1 cells  
nitric oxide and, G650  
PACAP-stimulated, G516

**Cholecystokinin receptors**

and signal transduction, G8  
vagal, G1

**Cholestasis**

altered sinusoidal transporters in, G1043  
and hepatic transport of  $\beta$ -estradiol (17- $\beta$ -D-glucuronide), G791  
sepsis-associated, potential rat model for, G137

**Cholesterol**

absorption  
in gallbladder epithelial cells, G410  
and lymphatic transport, after ileal transposition into upper jejunum, in rats, G681  
and gallbladder muscle contractility, in prairie dogs, G56  
transport, in gallbladder epithelial cells, G410

**Cholesterol 7 $\alpha$ -hydroxylase**

regulation in liver, G293

**Chylomicrons**

and satiation after lipid meal, in rats, G438

**Circadian rhythms**

of locomotor activity, in rat model of portal-systemic encephalopathy, and low-protein diet, G555

**Circulation, see Blood flow****Citrulline**

generation from arginine, in developing porcine enterocytes, G913

**Colitis**

acute, cytokine expression during healing of, in mice, G130

**Collagen**

type IV  
in intestinal epithelial restitution, G729  
in restitution of guinea pig gastric mucosa in vitro, G75

**Colon**

butyrate transport in, G415  
canine proximal, electrophysiological development of, G184  
chloride and potassium secretion in, induction by TNF- $\alpha$ , G669  
motility, stress and, in rat, G884  
mucosa, stress-related effects in, G884  
peristaltic reflex

5-HT receptors in, in guinea pig, G849  
regulation by excitatory and inhibitory enteric neurotransmitters, G433

**Colon carcinoma cells, see Intestinal cells, Caco-2****Colonocytes**

short-chain fatty acid metabolism in, G415

**Copper ions**

transport, ATP-dependent, G741

**Corticotropin-releasing factor**

and colonic mucosal responses in stress, G884

**Crypt cells**

intestinal, restitution, G729

**Cryptdins**

gene expression, in mouse small intestine, Paneth cell heterogeneity and, G68

**Cyclin**

in gut differentiation, study in Caco-2 cells, G722

**Cyclin-dependent kinase**

Cdk2, in gut differentiation, study in Caco-2 cells, G722  
Cdk4, in gut differentiation, study in Caco-2 cells, G722

**Cyclin kinase inhibitors**

p21, in gut differentiation, study in Caco-2 cells, G722  
p27, in gut differentiation, study in Caco-2 cells, G722

**Cystic fibrosis**

murine model, G1074  
pancreatic pathology in, G747

**Cystic fibrosis transmembrane conductance regulator**

activity in pancreatic epithelial cells, sex hormones and, G747  
gene expression, and mucin secretion in mouse gallbladder cells, G1074

**Cytokines**

expression  
by gastrointestinal lymphocytes, enteric bacterial products affecting, G841  
during healing of acute colitis in mice, G130  
responses in obstructive jaundice, G980  
in sepsis-associated cholestasis, G137

**D****Defensin**

gene expression, positional specificity, Paneth cell heterogeneity and, G68

**Deglycosylation**

of AE2 chloride/bicarbonate exchanger, in gastric parietal cells, G311

**Diarrhea**

in HIV-infected (AIDS) patients, pathogenesis, G669  
in inflammatory bowel disease, pathogenesis, G669

**Diet**

calorie-restricted, in aged mice, effects on physiological capacities, G192  
effects on disrupted diurnal locomotor activity in rats after portacaval anastomosis, G555  
effects on diurnal expression of hexose transporter in rat small intestine, G211

**Digestion**

of fat

intestinal length required for, G62  
physicochemical characteristics of emulsions during, G172

**Disaccharidases**

expression in Caco-2 cells, developmental regulation, G707

**DNA**

fragmentation, in reoxygenation-induced apoptotic hepatocytes, G949

**Duodenum**

motility, alkaline secretion and, G582  
mucosal protection, central adrenoceptors and, G831  
response to nonnutrient intestinal flow, in dogs, G423

**E****Edema**

pancreatic, in secretagogue-induced pancreatitis, G20

**Electrical acupuncture**

inhibition of gastric acid secretion by, G524

**Electrophysiology**

of canine ileum circular muscle, G1053  
of canine proximal colon, during development, G184  
of cell volume regulation in human biliary cell line, G239  
of motilin agonist, in gastrointestinal tract, G1003  
of nongenomic progestin effects on intestinal smooth muscle cells, G370  
of rumen epithelial cells, G1034  
of TNF- $\alpha$ -induced chloride and potassium secretion in human colon, G669

**Endocytosis**

fluid-phase, intestinal protein uptake via, G147  
in LPS-stimulated TNF- $\alpha$  release by rat Kupffer cells, G920

 **$\beta$ -Endorphins**

and inhibition of gastric acid secretion by electrical acupuncture, G524

**Endothelial cells**

hepatic sinusoidal, regulation of inducible nitric oxide synthase in, G260  
lymphocyte interactions with, endotoxin-stimulated, in rat intestine, G282

**Endothelin**

ET-1

in endotoxin-induced microcirculatory disturbance, in rat small intestine, G461  
gastric vasoconstriction induced by, attenuation by nitric oxide, G27

**Endotoxin**

and bile acid transport in rat liver, G137  
and cytokine response after surgery, in bile duct-ligated rats, G980  
and endothelin-1 production in rat small intestine, G461  
and hepatic gluconeogenesis, study of nitric oxide production and, G621  
and ileal muscle contractility and nitric oxide synthase II expression, G454  
inhibition of nitric oxide synthase gene expression, G539

and interorgan metabolism of nitric oxide and glutathione, G575  
nitric oxide synthase induction by, in hepatic sinusoidal endothelial cells, G260

shock induced by, survival, dietary glycine and, G97

stimulation of lymphocyte-endothelial interaction, G282

stimulation of TNF- $\alpha$  release by rat Kupffer cells, endocytosis and calcium in, G920

tolerance, development of, G539

**Enteric nervous system**

actions of calcitonin gene-related peptide in, G876  
activity, during development of canine proximal colon, G184  
antigen-induced ion secretion in rat jejunum and, G987  
integrated control of muscular and epithelial effectors in small bowel, nematode-induced inflammation and, G48  
neurotransmission, in guinea pig ileal circular muscle, G904  
and peristaltic reflex in distal colon of guinea pig, G849

**Enterochromaffin-like cells**

gastric, Rab3D localization to, G531

**Enterocytes**

developing, arginine metabolism in, G913  
differentiation, AE2 mRNA levels during, G330  
gene expression in, in hibernators, G805

**Enterohepatic circulation**

and cholesterol 7 $\alpha$ -hydroxylase regulation in liver, G293

**Enteropathy**

NSAID-induced, G605

**Enterostatin**

efflux in cat intestinal lymph, relation to fat absorption and hyaluronan, G714

**Enterotoxin, heat-stable**

response of fasted gut to, G959

**Enzymes**

intestinal, gene expression, during hibernation, G805

**Epidermal growth factor**

and brush-border glucose and proline transport, G509  
and gastric parietal cell acid secretion, G640  
mitogenic effect on gastric mucous cells, insulin and, G104  
stimulation of gastrin promoter, Fos requirement, G942

**Epithelial cells**

bile duct, cell volume regulation in, G239  
gallbladder, cholesterol transport in, G410  
gastric mucous, mitogenic effect of EGF on, potentiation by insulin, G104  
intestinal  
see also **Intestinal cells, Caco-2**  
iron absorption, regulation by intracellular iron, G443  
migration, in wound repair, G729  
migration, stimulation by PLA<sub>2</sub>, G664  
in newborn swine, lipoprotein and apolipoprotein secretion by, G249

ornithine decarboxylase gene expression in, in response to asparagine, G164

pancreatic, CFTR-mediated ion transport, sex hormones and, G747

**Epithelium**

bile duct, calcium signaling in, G86  
gastrointestinal, in inflammation, G987  
intestinal, restitution, regulation and function of ECM in, G729  
rumen, magnesium transport, potassium and, G1034

**Escherichia coli**

enteropathogenic, products that inhibit lymphokine expression, G841  
heat-stable enterotoxin, response of fasted gut to, G959

**Esophagus**

motility, effect of morphine and naloxone on, G675  
motor response to swallowing and distension, effect of morphine and naloxone on, G675  
sensory function, in spinal cord-injured patients, G937

**Estradiol**

and CFTR-mediated ion transport in pancreatic epithelial cells, G747

 **$\beta$ -Estradiol 17( $\beta$ -D-glucuronide)**

ATP-dependent transport, in rat canalicular membrane vesicles, G791

**Ethanol**

gastric mucosal damage due to, protection against, G1017  
hepatic injury due to, via hypoxia, G494  
vasoaction, and adenosine A<sub>2</sub>-receptor, in stomach, G1017

**Evoked potentials**

in esophageal sensory testing, G937

**Exocytosis**

regulated, role of Rab3D in, G531

**Extracellular matrix**

regulation and function, in intestinal epithelial restitution in vitro, G729

**Extracellular signal-related kinase, see Mitogen-activated protein kinases****F****Fasting**

redistribution of intestinal guanylyl cyclase C during, G959

**Fat, dietary**

absorption  
and enterostatin efflux in cat intestinal lymph, G714  
intestinal length required for, G62  
digestion, physicochemical characteristics of emulsions during, G172

**Fatty acid-binding proteins**

gene expression, in small intestinal adaptation after resection, G347  
inhibition, and reduction of intracellular transport of fatty acids, G113

**Fatty acids**

hepatocellular uptake of, surface and intracellular pH and, G1067  
intracellular transport of, reduction by inhibition of fatty acid-binding protein binding, G113  
short-chain  
metabolism, in colonocytes, G415  
transport, in human colon, G415

**Fatty acids (continued)**

uptake, in newborn piglet intestinal cell line, G249

**Feeding**

gastric mucosal proliferative response to, in rat, G470

**Ferritin**

and regulation of iron absorption in intestinal epithelial cells, G443

**Fibronectin**

in intestinal epithelial restitution, G729

**G****Gallbladder**

cholesterol transport in, G410  
muscle contractility, cholesterol and, in prairie dogs, G56  
neurons, excitation by calcitonin gene-related peptide, G876  
physiology, M<sub>1</sub> muscarinic receptors and, G824

**Gallstones**

cholesterol, and gallbladder muscle contractility, in prairie dogs, G56

**Gastric, see Stomach****Gastric acid secretion, see Stomach, acid secretion****Gastric inhibitory polypeptide**

effects on intestinal basolateral membrane hexose transport, G477

**Gastrin**

carboxyamidated, pharmacokinetics and organ metabolism of, in pigs, G156  
gene expression, G942  
glycine-extended, pharmacokinetics and organ metabolism of, in pigs, G156  
mediation of gastric mucosal proliferative response to feeding, G470  
omeprazole-induced release, and gastric gastrin-releasing peptide, in rat, G799

**Gastrin epidermal growth factor response element**

gastrin promoter regulation and, G942

**Gastrin-releasing peptide**

gastric, and omeprazole-induced hypergastrinemia, in rat, G799  
gene expression, and omeprazole-induced hypergastrinemia, in rat, G799

**Gastrointestinal motility**

*see also Peristalsis*

effects of meal size on, G549  
and fat absorption, G62  
interdigestive, G423  
nongenomic progesterone effects on intestinal smooth muscle cells and, G370  
prejunctional regulation, G904

**Gastrointestinal mucosa**

blood flow, neural reflexes regulating, G223  
lymphocyte-endothelial interaction in, heterogeneity within different regions, G282

**Gene expression**

*c-fos*, and induction of gastrin promoter by EGF, G942  
cryptdin, in mouse small intestine, Paneth cell heterogeneity and, G68  
cystic fibrosis transmembrane conductance regulator, and mucin secretion in mouse gallbladder cells, G1074

cytokine, during healing of acute colitis in mice, G130

defensin, positional specificity, Paneth cell heterogeneity and, G68

gastrin, G942

gastrin-releasing peptide, and omeprazole-induced hypergastrinemia, in rat, G799

hexose transporter, diurnal, in rat small intestine, effects of diet, G211

hydrogen-potassium ATPase, gastric acid secretion and, G1104

intestinal, in hibernators, G805

lactase-phlorizin hydrolase, regulation, transcription factors and, G707

liver sinusoidal transporter, alterations, in ethinyl estradiol cholestasis, G1043

lymphokine, enteric bacterial products affecting, G841

in mice with altered iron metabolism, G772

nitric oxide synthase, inhibition by endotoxin, G539

PRL-1

and cellular differentiation in intestine, G121

and liver regeneration, G121

in small intestinal adaptation after resection, G347

sucrase-isomaltase, regulation, transcription factors and, G707

**Glucagon-like peptides**

and intestinal basolateral membrane hexose transport, G477

**Glucocorticoids**

and IL-1 $\beta$  release from gastric fundus, in rat, G275

**Gluconeogenesis**

hepatic, in sepsis, defect in, G621

**Glucose**

enterocyte transport of, luminal epidermal growth factor and, G509

**Glucose-regulated proteins**

*see also Heat shock proteins*

grp78, gene expression, in small intestinal adaptation after resection, G347

**Glucose transporter**

GLUT-2, diurnal expression in rat small intestine, G211

GLUT-5, diurnal expression in rat small intestine, effects of diet, G211

**Glutamine**

in gut adaptation, G866

**Glutathione**

depletion, during secretagogue-induced pancreatitis, G20

metabolism, in endotoxemic rats, G575  
transport, chronic hypoxia in small bowel and, in rats, G701

**Glutathione peroxidase**

activity in small intestine of rats, chronic hypoxia and, G701

**Glutathione S-transferase**

activity in small intestine of rats, chronic hypoxia and, G701

**Glycine**

dietary, and survival in endotoxin shock, in rat, G97

**GM611**

electrophysiological characterization, in rabbit gastrointestinal tract, G1003

**Growth**

of gut mucosa, effects of luminal amino acids on, G164

in liver regeneration, G121

**Growth factors**

in gut adaptation after ileal resection, G866

**Guanylin**

response of fasted gut to, G959

**Guanylyl cyclase**

GC-C, intestinal, structure, glycosylation, and localization of, G959

**H****Heat shock proteins**

HSP32, and hepatic portal resistance, G929

**Heme oxygenase**

HO-1, and hepatic portal resistance, G929

**Hemorrhage**

hepatic portal resistance after, G929

**Hepatic artery**

perfusion, effects on intrahepatic blood flow distribution in isolated perfused rat liver, G561

**Hepatic encephalopathy**

rat model for, effects of diet on, G555

**Hepatocarcinoma-intestine-pancreas protein, human, see HIP/PAP****Hepatocellular carcinoma**

HIP/PAP expression in, G993

**Hepatocytes**

bile acid uptake, regulation by calcium-mobilizing agents, G1084

DNA synthesis, differential regulation by cAMP, in vitro and in vivo, G780

fatty acid uptake, pH and, G1067

hypoxic, reoxygenation, apoptosis induced by, ICE proteases in, G949

intracellular transport of fatty acids, reduction, by fatty acid-binding protein inhibition, G113

**Hexose transport**

intestinal basolateral membrane

gastric-inhibitory peptide and, G477

glucagon-like peptides and, G477

transepithelial, cholecystokinin and, in jejunum, G755

**Hexose transporter**

diurnal expression in rat small intestine, effects of diet, G211

**HIP/PAP**

adhesive activity, G993

**Histamine receptors**

H<sub>2</sub>, dual-signal transduction, G613

**Human calcitonin gene-related peptide-(8-37)**

gastric mucosal resistance and, G1017

**Human immunodeficiency virus infection**

diarrhea in, pathogenesis, G669

**Hyaluronan**

intestinal turnover, G714

**Hydrogen-potassium ATPase**

gene expression, gastric acid secretion and, G1104

$\alpha$ -subunit, gene promoter, G1104

**5-Hydroxytryptamine receptors**

*see also Serotonin receptors*

5-HT<sub>3</sub>

intestinal, in induction of nausea, G591

- and peristaltic reflex in distal colon of guinea pig, G849
- 5-HT<sub>4</sub>, and peristaltic reflex in distal colon of guinea pig, G849
- Hypergastrinemia**
  - omeprazole-induced, and gastric gastrin-releasing peptide, in rat, G799
- Hyperglycemia**
  - proximal gastric motor and sensory function and, G814
- Hypomagnesemia**
  - development in ruminants, G1034
- Hypothalamus**
  - lateral area, gastric vagal afferent and peripheral nerve inputs to single neurons of, G858
- Hypoxia**
  - ethanol-induced, in rat liver tissue in vivo, G494
  - and expression of iron-related proteins, in mice, G772
  - small bowel
    - and glutathione transport, G701
    - and GSH-dependent detoxication, G701
- Hypoxia-reoxygenation**
  - and  $\alpha_{1b}$ -adrenoceptor function in small mesenteric arteries, G820
  - of hepatocytes, apoptosis induced by, G949

## I

**ICE proteases, see Interleukin-1 $\beta$ -converting enzyme proteases****Ileum**

- circular muscle
  - myogenic and neurogenic activities of, Ca<sup>2+</sup> in, G1053
- NANC neurotransmission to, inhibition by nitric oxide, G904
- hyaluronan efflux from, into lymph, after fat absorption, G714
- indomethacin-induced injury and inflammation, superior mesenteric artery blood flow and, G605
- macromolecular uptake in, carbachol and, G147
- smooth muscle contractility, nitric oxide and, in LPS-treated rats, G454
- sodium-dependent bile acid transporter ontogeny in, in rat, G377
- transposition into upper jejunum, effects on absorption and transport of lipid and bile salt, in rats, G681

**Immunophysiology**

- of rat jejunum, G987

**Indomethacin**

- intestinal injury and inflammation induced by, superior mesenteric artery blood flow and, G605

**Inflammation**

- intestinal
  - epithelial dysfunction in, G987
  - indomethacin-induced, superior mesenteric artery blood flow and, G605
  - TNF- $\alpha$  and diarrhea in, G669
- nematode-induced
  - and integrated neural control of muscular and epithelial effectors in small bowel, G48
  - rat jejunal alterations in, NOS activity suppression and, G338

**Inflammatory bowel disease**

- diarrhea in, pathogenesis, G669

**Insulin**

- potentiation of mitogenic effect of EGF, on gastric mucous cells, G104

**Insulin-like growth factor-I**

- in gut adaptation, G866

**Integrins**

- $\alpha_4$ -, in endotoxin-stimulated lymphocyte-endothelial cell interactions, in rat intestine, G282
- $\beta_2$ -, in endotoxin-stimulated lymphocyte-endothelial cell interactions, in rat intestine, G282

**Interferon**

- INF- $\gamma$ , nitric oxide synthase induction by, in hepatic sinusoidal endothelial cells, G260

**Interleukin-1 $\beta$ -converting enzyme proteases**

- in apoptosis due to reoxygenation after hypoxia, G949

**Interleukins**

- IL-1 $\beta$ , release from rat gastric fundus, G275
- IL-6, in obstructive jaundice, G980
- expression
  - by gastrointestinal lymphocytes, enteric bacterial products affecting, G841
  - during healing of acute colitis in mice, G130

**Interstitial cells of Cajal**

- development, and electrical and mechanical activity during development of canine proximal colon, G184

- in pacemaker function of gut, G762, G1053

- studies in W mutant mice, G387

**Intestinal cells**

- see also **Crypt cells**

- Caco-2
  - carbohydrase expression in, developmental regulation, G707
  - differentiation, cell cycle proteins and, G722
  - regulation of iron absorption in, G443
- restitution, ECM proteins in, G729

**Intestinal hypersensitivity**

- regulation, neuropeptides in, G987

**Intestine**

- brush-border proteins, gene expression, during hibernation, G805
- capacity, and nutrient loads, simultaneous manipulation of, in mice, G969
- cellular differentiation in, PRL-1 expression and, G121
- gene expression in, during hibernation, G805
- growth, studies in mice, G969
- human, sodium/proton antiporter isoforms NHE-1, NHE-2, and NHE-3 in, G483
- indomethacin-induced injury and inflammation, superior mesenteric artery blood flow and, G605
- nonnutrient infusion into, intestinal contractions during, in dogs, G423
- nutrient transport, in aged calorie-restricted mice, G192
- protein permeability, G147
- regeneration, studies in mice, G969
- resection, studies in mice, G969

**Intestine, small**

- adaptation after resection
    - cloned cDNAs differentially expressed in, G347
    - regulation by glutamine and IGF-I, G866
  - bile-pancreatic juice in, and negative feedback control of pancreatic secretion, G501
  - capacity and load in, G969
  - diurnal expression of hexose transporter, in rat, effects of diet on, G211
  - endotoxin-induced microcirculatory change, endothelin-1 and, in rat, G461
  - gene expression in, during hibernation, G805
  - hypoxia, effects on glutathione transport and GSH-dependent detoxication, G701
  - indomethacin-induced injury and inflammation, superior mesenteric artery blood flow and, G605
  - integrated neural control of muscular and epithelial effectors in, nematode-induced inflammation and, G48
  - motility, neural control of, during non-nutrient infusion, in dogs, G423
  - murine, Paneth cell heterogeneity in, G68
  - peptide YY receptors, in dog, G36
  - reserve capacity, studies in mice, G969
  - transepithelial hexose transport, cholecystokinin and, in rat, G755
  - of W mutant mice, action potentials in, G387
- Ionomycin**
- regulation of bile acid uptake in hamster hepatocytes, G1084
- Ion secretion**
- antigen-induced, in rat jejunum, neuropeptides and, G987
- Ion transport**
- jejunal, nematode-induced inflammation and, G48
  - in pancreatic epithelial cells, CFTR-mediated, sex hormones and, G747
- Iron**
- absorption
    - regulation by intracellular iron, in Caco-2 cells, G443
    - and regulation of mucosal iron metabolism, G772
  - deficiency, and expression of iron-related proteins, in mice, G772
  - homeostasis, regulation, G443
  - metabolism, gene regulation, murine model for, G772
  - nonheme, intestinal levels in mice with altered iron metabolism, G772
  - overload, and expression of iron-related proteins, in mice, G772
- Ischemia-reperfusion**
- gastric, vascular response to endothelin-1 after, G27
  - hepatic, with endotoxin-induced shock, survival after, glycine feeding and, G97
  - intestinal, vascular response to norepinephrine after, G820
  - pancreatic, nitric oxide in, in rats, G405

## J

**Jejunoleum**

denervated, and response to nonnutrient intestinal flow, in dogs, G423

**Jejunum**

see also **Intestine, small**

basolateral membrane hexose transport, effects of GIP and glucagon-like peptides on, G477  
gene expression in, during hibernation, G805

immunophysiology of, in rat, G987  
indomethacin-induced injury and inflammation, superior mesenteric artery blood flow and, G605  
motility, nematode-induced inflammation and, G48, G338  
response to nonnutrient intestinal flow, in dogs, G423  
transepithelial hexose transport, cholecystokinin and, in Sprague-Dawley rat, G755

## K

**Kidney**

organic anion transport protein distribution in, in rat, G231  
sodium-dependent bile acid transporter ontogeny in, in rat, G377

**Kupffer cells**

calcium in, in endotoxic shock, G97  
LPS-stimulated TNF- $\alpha$  release, endocytosis and calcium in, G920  
role in ethanol-induced hypoxia in vivo, G494

## L

**Lacrimal gland**

acinar cells, Rab3D localization to, G531

**Lactase**

regulation in Caco-2 cells, G707

**Lactase-phlorizin hydrolase**

gene expression, regulation, transcription factors and, G707

**Laminins**

in intestinal epithelial restitution, G729

**Lectins**

C-type, HIP/PAP protein and, G993

**Lipid binding protein**

ileal, gene expression, in small intestinal adaptation after resection, G347

**Lipids**

see also **Fat, dietary**

absorption  
after ileal transposition into upper jejunum, in rats, G681  
intestinal length required for, G62  
and satiation, in rats, G438  
administration, effect on intestinal apolipoprotein A-IV, G322  
duodenal infusion, in induction of nausea, 5-HT<sub>3</sub> receptors and, G591

**Lipolysis**

in fat digestion, G172

**Lipopolysaccharide, see Endotoxin****Lipoprotein**

secretion, by newborn piglet intestinal cell line, G249

**Liver**

see also **Hepatocytes**

bile acid transport, effect of endotoxin on, in rat, G137

blood flow heterogeneity, in isolated perfused rat model, G561

cholesterol 7 $\alpha$ -hydroxylase regulation in, G293

dual-perfusion preparation, hemodynamics of, in rat, G201

ethanol-induced hypoxia in, in rat tissue in vivo, G494

gluconeogenesis, in sepsis, defect in, G621

isolated perfused rat preparation, hemodynamics, effects of hepatic artery perfusion on, G561

membrane-bound alkaline phosphatase, hydrolysis by GPI-PLD, G655

nitric oxide and glutathione metabolism in, effects of endotoxin on, G575

organic anion transport protein distribution in, in rat, G231

regeneration, PRL-1 expression and, G121

sinusoidal endothelial cells, regulation of inducible nitric oxide synthase in, G260

sinusoidal transporters, alterations in ethinyl estradiol cholestasis, G1043

vascular resistance, study in dual-perfusion preparation of rat liver, G201

**Lorglumide**

effects on jejunal transepithelial hexose transport, in rat, G755

**Loxiglumide**

effects on gastric emptying, in humans, G448

**LPS (lipopolysaccharide), see Endotoxin****Lymphocytes**

adhesion, endotoxin-stimulated, in rat intestine, G282

in gastrointestinal mucosa, lymphokine expression, enteric bacterial products affecting, G841

interactions with endothelial cells, endotoxin-stimulated, in rat intestine, G282

rolling, endotoxin-stimulated, in rat intestine, G282

**Lymphokines**

expression by gastrointestinal lymphocytes, enteric bacterial products affecting, G841

**Lysophosphatidylcholine**

effects on rat intestinal epithelial cell migration stimulated by PLA<sub>2</sub>, G664

**Lysosomal hydrolase**

redistribution, in secretagogue-induced pancreatitis, G20

## M

**Magnesium ions**

transport, across rumen epithelium, potassium and, G1034

**Magnetic resonance imaging**

measurement of gastric motility with, G217

**Mast cells**

colonic mucosal, in stress, G884

**Membrane transport**

hepatocellular, G1067

**Mesenteric circulation**

arterial  
autoregulation, nitric oxide attenuation of, G400

hypoxia/reoxygenation-induced contractile dysfunction in, G820

**Messenger RNA**

stability, and neonatal expression of apical sodium-dependent bile acid transporter gene in rat kidney and ileum, G377

**Methodologies**

for bromodeoxyuridine immunohistochemistry in gastric mucosa, G470  
for chemiluminescence analysis of gastric nitric oxide production, G1039  
for continuous measurement of gastric nitric oxide production, G1039  
for double-tracer scintigraphy of gastric emptying, G448  
for dual-perfusion preparation of rat liver, G201  
of rat small intestine, G755  
for electron spin resonance detection of nitric oxide, G405  
for electrophysiological characterization of motilin agonist, G1003  
for in situ hybridization of sodium/proton antiporter isoforms in human intestine, G483  
for in vivo microscopy, in rat stomach, G1028  
for intravital microscopic study of rat liver, G201  
for lipid droplet size measurement, G172  
for membrane dialysis technique, in measurement of gastric nitric oxide production, G1039  
for multiple indicator dilution study of isolated perfused rat liver with hepatic artery perfusion, G561  
for radiolabeled microsphere technique for measurement of blood flow, G598  
for radionuclide studies of gastric emptying, G549

**Mice**

see also **Transgenic mice**

acute colitis in, cytokine expression during healing of, G130  
altered iron metabolism in, expression of genes involved in, G772  
chronic caloric restriction in, effects on intestinal nutrient transport, G192  
as cystic fibrosis model, G1074  
intestinal capacities and nutrient loads, simultaneous manipulation of, G969  
intestinal contractile responses, development of, and Kit, G762  
intestinal pacemaker activity in, and Kit, G387, G762  
small intestine of, Paneth cell heterogeneity in, G68  
W mutant, action potentials in small intestine of, G387

**Microcirculation**

gastric  
ethanol-induced dilation, and adenosine A<sub>2</sub>-receptor, G1017  
regulation, role of nitric oxide in, in dog, G27  
hepatic, study in dual-perfusion preparation of rat liver, G201

- intestinal  
 endotoxin-induced alteration, ET-1 and, G461  
 neural reflexes controlling, G223
- Migrating myoelectric (motor, motility) complexes**  
 in canine small intestine, G423
- Mitogen-activated protein kinases**  
 cAMP and, in hepatocytes, G780  
 ERK-1, gastric parietal cell, G640  
 ERK-2, gastric parietal cell, G640
- Monoclonal antibodies**  
 anti-Kit, effects on intestinal pacemaker activity, G762  
 gastrin-specific, G470
- Morphine**  
 effects on esophageal motility, G675
- Motilin**  
 agonist, electrophysiological characterization, in rabbit gastrointestinal tract, G1003
- Mucin**  
 secretion  
 in mouse gallbladder cells, CFTR expression and, G1074  
 stress-related, in rat colon, G884
- Multidrug resistance protein**  
 $\beta$ -estradiol 17( $\beta$ -D-glucuronide) as substrate for, G791
- Muscarinic receptors**  
 M<sub>1</sub>, and gallbladder physiology, G824
- Muscle, smooth**  
 colonic, large-conductance calcium-activated potassium channels from, cloning and expression of, G629  
 gallbladder, dysfunction, with cholesterol gallstones, G56  
 gastric, relaxation, VIP release and nitric oxide formation during, G357  
 ileal, contractility, nitric oxide and, in LPS-treated rats, G454  
 intestinal  
 contractile properties of, development, G762  
 contractility, steroid hormone effects on, G370  
 electrical and mechanical activity in, during development of canine proximal colon, G184  
 electrophysiological characterization of motilin agonist on, G1003  
 nematode-induced inflammation in, NOS activity suppression and, G338  
 nongenomic progesterone effects on, G370  
 vascular, hypoxia/reoxygenation-induced contractile dysfunction in, G820
- Myenteric plexus**  
 peptide YY receptors, in canine small intestine, G36
- Mz-ChA-1 cholangiocarcinoma cell line**  
 calcium-activated chloride channels in, regulation of, G304  
 cell volume regulation in, G239

## N

- Nematode**  
 parasitic, infection  
 neural control of jejunal motility and ion transport in, G48  
 in rats, effects of oral L-NAME during, G338

- Neurokinin receptors**  
 NK<sub>2</sub>, mediation of tachykinin-induced gastric mucosal resistance, G1017
- Neurons**  
 intrapancreatic, stimulation by cholecystokinin, G1
- Neuropeptides**  
 see also **Substance P**  
 antigen-induced ion secretion in rat jejunum and, G987  
 NPY, antigen-induced ion secretion in rat jejunum and, G987
- Neurotransmission**  
 inhibitory, nitric oxide in, G357
- Neurotransmitters**  
 enteric, excitatory and inhibitory, in regulation of colonic propulsion, G433
- Nicotinic receptors**  
 and peristaltic reflex in distal colon of guinea pig, G849
- Nitric oxide**  
 attenuation of autoregulation, in superior mesenteric artery, G400  
 and cholecystokinin secretion, in STC-1 cells, G650  
 in colonic propulsion, G433  
 and endothelin-1-induced vasoconstriction in canine stomach, G27  
 and fetal gastrointestinal blood flow, G598  
 gastric production, continuous measurement of, G1039  
 and ileal muscle contractility, in LPS-treated rats, G454  
 inhibition of NANC neurotransmission to circular muscle, G904  
 in inhibitory neurotransmission, G357  
 metabolism, in endotoxemic rats, G575  
 in modulation of duodenal alkaline secretion and motility, G582  
 in pancreatic ischemia-reperfusion, in rats, G405  
 production  
 from arginine, G913  
 in endotoxemia, and hepatic gluconeogenesis, G621  
 and VIP release, during gastric muscle relaxation, G357  
 in regulation of VIP release during gastric muscle relaxation, G357  
 from rat enteric nerve terminals, G568  
 tachykinin-induced gastric mucosal resistance and, G1017  
 in transmural jejunal pathology in *T. spiralis* infection, G338
- Nitric oxide synthase**  
 in arginine degradation by enterocytes, G913  
 expression  
 inhibition by endotoxin, G539  
 LPS-induced, and ileal muscle contractility, G454  
 inducible  
 in jejunum from *T. spiralis*-infected rats, G338  
 regulation in hepatic sinusoidal endothelial cells, G260  
 inhibition  
 and cholecystokinin secretion in STC-1 cells, G650  
 effects on colonic propulsion, G433

- effects on gastric muscle relaxation in rat and rabbit, G357  
 effects on intestinal motility, G582
- N<sup>G</sup>-Nitro-L-arginine methyl ester**  
 oral administration, effects on jejunal pathology in *T. spiralis* infection, G338
- Nitrosylhemoglobin**  
 detection by electron spin resonance, G405
- Nonadrenergic noncholinergic nerves**  
 neurotransmission, in guinea pig ileal circular muscle, G904
- Nonsteroidal anti-inflammatory drugs**  
 intestinal injury and inflammation induced by, G605
- Norepinephrine**  
 $\alpha_{1b}$ -adrenoceptor responses to, after hypoxia-reoxygenation, G820
- Nuclear factor**  
 NF-LPH-1, in developmental regulation of carbohydrate expression in Caco-2 cells, G707  
 SIF-1, in developmental regulation of carbohydrate expression in Caco-2 cells, G707
- Nutrients**  
 absorption, in aged calorie-restricted mice, G192  
 gut-trophic, in intestinal adaptation after ileal resection, G866
- Nutrition**  
 in aged mice, effects on physiological capacities, G192  
 effects on diurnal expression of hexose transporter in rat small intestine, G211

## O

- Obstructive jaundice**  
 and endotoxin tolerance, in bile duct-ligated rats, G980
- Omeprazole**  
 and gastric gastrin-releasing peptide, G799
- Oncogenes**  
 c-fos, gene expression, and induction of gastrin promoter by EGF, G942
- Ondansetron**  
 effects on lipid-induced nausea, G591
- Opioids**  
 endogenous  
 effects on esophageal motility, G675  
 effects on somatostatin, VIP, and  $\beta$ -endorphin release, G675
- Organic anion transport**  
 non-bile acid,  $\beta$ -estradiol 17( $\beta$ -D-glucuronide) as substrate for, G791
- Organic anion transporter**  
 alterations, in ethinyl estradiol cholestasis, G1043  
 oatp, distribution in rat liver and kidney, G231
- Ornithine**  
 generation from arginine, in developing porcine enterocytes, G913
- Ornithine decarboxylase**  
 in gastric healing, G893  
 gene expression, in response to asparagine, in intestinal epithelial cells, G164

**Oxyntopeptic cells**

basolateral membranes, chloride-independent  $\text{HCO}_3^-$  transport in, G1096

**P****PACAP**, *see* **Pituitary adenylate cyclase-activating polypeptide****Pacemaker function**

intestinal, G1053  
and Kit, in mice, G387, G762

**Pain**

esophageal, origin and pathways, G937

**Pancreas****acinar cells**

action of cholecystokinin on, G1  
Rab3D localization to zymogen granules in, G531  
vacuolation, in secretagogue-induced pancreatitis, G20

**enzyme secretion**

cholecystokinin and, G1  
cholinergic pathways in, G1  
second messengers in, stimulation by cholecystokinin analogues, structural requirements for, G8  
stimulation by cholecystokinin analogues, structural requirements for, G8

exocrine, negative feedback regulation of, G42, G501

HIP/PAP expression in, G993

ischemia-reperfusion, nitric oxide in, rats, G405

secretory response to dietary protein, G501

and peptic digestion, G42

**Pancreatic polypeptide**

intestinal-phase release of, cholecystokinin and, G824

**Pancreatitis**

secretagogue-induced, early events in, G20

**Pancreatitis-associated protein**

gene expression, in small intestinal adaptation after resection, G347

human, *see* **HIP/PAP**

**Paneth cells**

heterogeneity, in mouse small intestine, G68

HIP/PAP expression in, G993

Rab3D localization to, G531

**PAP (pancreatitis-associated protein, human)**, *see* **HIP/PAP****Paraplegia**

esophageal sensation in, G937

**Parietal cells**, *see* **Stomach, parietal cells****Parotid gland**

acinar cells, Rab3D localization to, G531

**Peptide tyrosine tyrosine**, *see* **Peptide YY receptors****Peptide YY receptors**

in canine small intestine, G36

**Peripheral nervous system**

and gastric vagal afferents, convergent inputs to single neurons of lateral hypothalamus, G858

**Peristalsis****colonic**

5-HT receptors in, in distal colon of guinea pig, G849

regulation by excitatory and inhibitory enteric neurotransmitters, G433

**P-glycoprotein**

$\beta$ -estradiol 17( $\beta$ -D-glucuronide) as substrate for, G791

**pH**

intracellular, and bicarbonate transport in *Necturus* oxyntopeptic cells, G1096

**Phosphoenolpyruvate carboxykinase**

activity, NO-independent reduction in, in sepsis, G621

**Phospholipases**

PLA<sub>2</sub>, stimulation of rat intestinal epithelial cell migration, G664

PLC, activation by histamine H<sub>2</sub> receptors, signal transduction for, G613

PLD, GPI-specific, hydrolysis of membrane-bound liver alkaline phosphatase, G655

**Pituitary adenylate cyclase-activating polypeptide**

stimulation of cholecystokinin secretion, in STC-1 cells, G516

**Plasma membrane**

cholesterol in, and gallbladder muscle contractility, in prairie dogs, G56

**Pluronic L-81**

effects on satiation after lipid meal, in rats, G438

**Polyamines**

in gastric healing, G893

**Portacaval anastomosis**

in rat, as model for portal-systemic encephalopathy, effects of low-protein diet in, G555

**Portal circulation**

vascular control in, stress response and, functional link between, G929

**Potassium-ATPase**

activity in rat distal colon, during development, G268

**Potassium channels**

*see also* **Potassium currents**

calcium-activated, large-conductance, from colonic smooth muscle, cloning and expression of, G629

nitric oxide-regulated, and cholecystokinin secretion, G650

**Potassium currents**

*see also* **Potassium channels**

swelling-activated, in human biliary cell line, G239

**Potassium ions**

conductances, in rumen epithelial cells, G1034

homeostasis, regulation, colonic development and, G268

secretion in human colon, induction by TNF- $\alpha$ , G669

**transport**

*see also* **Potassium currents**

and  $\text{HCO}_3^-$  transport in *Necturus* oxyntopeptic cells, G1096

in rat distal colon, ontogeny of, G268

**Pregnancy**

bile secretory function in, G791

**PRL-1**

gene expression

and cellular differentiation in intestine, G121

and liver regeneration, G121

**Progesterone**

and CFTR-mediated ion transport in pancreatic epithelial cells, G747  
nongenomic effects on human intestinal smooth muscle cells, G370

**Proline**

enterocyte transport of, luminal epidermal growth factor and, G509  
generation from arginine, in developing porcine enterocytes, G913

**Prostaglandins**

in modulation of duodenal alkaline secretion and motility, G582

PGE<sub>2</sub>, mediation of TNF- $\alpha$ -induced chloride and potassium secretion in human colon, G669

**Prostanoids**

in modulation of duodenal alkaline secretion and motility, G582

**Protein**

mucosal-to-serosal transport, in rat ileum, carbachol and, G147

processing, differential, in rat liver and kidney, G231

trafficking, differential, in rat liver and kidney, G231

**Protein, dietary**

allergic reactions to, intestinal protein permeability and, G147

effects on rat model for hepatic encephalopathy, G555

peptic digestion, and pancreatic feedback stimulatory response, G42

stimulation of pancreatic secretion, G42, G501

**Protein kinases**

calcium/calmodulin-dependent, regulation of calcium-activated chloride channels in human biliary cell line, G304

mitogen-activated, cAMP and, in hepatocytes, G780

**PKC**

in gastric mucous cells, effect of EGF and insulin on, G104

hepatocellular, activation by bile acids, G293

phorbol ester activator, activation of intracellular signaling pathways in gastric parietal cells, G640

stress-activated, and hepatocyte regeneration, G780

**Protein phosphatase**

PP1 $\delta$ , gene expression, in small intestinal adaptation after resection, G347

**Protein tyrosine phosphatase**

gene expression

and cellular differentiation in intestine, G121

and liver regeneration, G121

**Protooncogenes**

*kit*, protein product, and intestinal pacemaker activity, G387, G762

**R****Rab3D**

distribution in exocrine glands, G531  
localization to zymogen granules in rat pancreatic acini, G531

**Reactive oxygen species**

in apoptosis due to reoxygenation after hypoxia, G949

**Regulatory volume decrease**  
in human biliary cell line, G239

**Restitution**

- in gastric mucosa, G893
- of guinea pig, TGF- $\beta$  in, G75
- in vitro model for regulation and function of extracellular matrix in, G729
- TGF- $\beta$  in, G75

**Retinol binding protein**

- cellular, gene expression, in small intestinal adaptation after resection, G347

**S**

**Satiety**

- postabsorptive factors and, in rats, G438

**Sensory testing**

- for esophageal sensation in spinal cord-injured patients, G937

**Serotonin receptors**

- see also 5-Hydroxytryptamine receptors
- vagal, G1

**Sex hormones**

- and CFTR-mediated ion transport in pancreatic epithelial cells, G747

**SGLT-1, see Sodium-glucose cotransporter**

**Shock**

- endotoxic, survival, dietary glycine and, G97
- hepatic portal resistance in, G929

**Signal transduction**

- dual, in histamine H<sub>2</sub> receptor activation of adenylate cyclase and PLC, G613
- for hepatocyte proliferation, differential regulation in vitro and in vivo, G780

**Sodium-glucose cotransporter**

- SGLT-1
- diurnal expression in rat small intestine, G211
- intestinal activity, during hibernation, G805

**Sodium ions**

- absorption, in human intestine, contribution of sodium/proton antiporter isoforms to, G483
- transport, and HCO<sub>3</sub><sup>-</sup> transport in *Necturus* oxyntopeptic cells, G1096

**Sodium-potassium ATPase**

- activity in rat distal colon, during development, G268
- alterations, in ethinyl estradiol cholestasis, G1043

**Sodium/proton antiporter**

- fatty acid uptake and, G1067
- isoforms NHE-1, NHE-2, and NHE-3, distribution in human intestine, G483

**Somatostatin**

- cholecystokinin-induced gastric protection and, G692
- effects on jejunal transepithelial hexose transport, in rat, G755
- and inhibition of gastric acid secretion by electrical acupuncture, G524

**Spinal cord injury**

- esophageal sensation in, G937

**Stomach**

- acid secretion
- hydrogen-potassium ATPase expression and, G1104
- and IL-1 $\beta$  synthesis and secretion, G275
- inhibition by electrical acupuncture, G524
- antral contraction, MRI study of, G217
- chief cells, Rab3D localization to, G531
- distension, sensitivity to, during intraduodenal lipid infusion, G591
- emptying
- cholecystokinin and, G448
- effects of meal size on, G549
- in hyperglycemia, G814
- MRI study of, G217
- endothelin-1-induced vasoconstriction in, attenuation by nitric oxide, G27
- enterochromaffin-like cells, Rab3D localization to, G531
- fullness sensation, during intraduodenal lipid infusion, G591
- fundus, IL-1 $\beta$  release from, in rat, G275
- healing, polyamines and actin distribution in, G893
- ischemia-reperfusion, vascular response
- endothelin-1 after, G27
- microcirculation
- ethanol-induced dilation, and adenosine A<sub>2</sub>-receptor, G1017
- regulation, role of nitric oxide in, in dog, G27
- motility, MRI study of, G217
- mucosa
- blood flow, cholecystokinin-induced augmentation of, G692
- chloride-independent HCO<sub>3</sub><sup>-</sup> transport, in *Necturus* oxyntopeptic cells, G1096
- cholecystokinin-induced protection of, G692
- proliferative response to feeding, mediation by gastrin, G470
- protection against ethanol-induced damage, G1017
- restitution, TGF- $\beta$  in, in guinea pig, G75
- mucosal blood flow
- ethanol metabolism and, G1028
- primary afferent neurons and, G1017
- mucosal resistance, tachykinins and, G1017
- nitric oxide production
- chemiluminescence analysis of, G1039
- continuous measurement of, G1039
- membrane dialysis technique for measurement of, G1039
- parietal cells
- AE2 chloride/bicarbonate exchanger, bicarbonate-dependent conformational change, G311
- H<sup>+</sup>-K<sup>+</sup>-ATPase  $\alpha$ -subunit gene promoter, in dog, G1104
- MAP kinases, G640
- proximal, motor and sensory function during hyperglycemia, G814
- smooth muscle, relaxation, VIP release and nitric oxide formation during, G357
- ulcers, polyamines and actin distribution in healing of, G893

**Stress**

- mucin release from rat colon in, G884

**Stress-activated protein kinase**

- and hepatocyte regeneration, G780

**Stress response**

- and vascular control in hepatic portal circulation, G929

**Submucosal plexus**

- peptide YY receptors, in canine small intestine, G36
- in regulation of gastrointestinal microvasculature, G223

**Substance P**

- antigen-induced ion secretion in rat jejunum and, G987

**Sucrase**

- regulation, in Caco-2 cells, G707

**Sucrase-isomaltase**

- gene expression, regulation, transcription factors and, G707

**Sugars**

- D-, intestinal transport of, in aged calorie-restricted mice, G192

**Swallowing**

- esophageal motor response to, effect of morphine and naloxone on, G675

**Swelling-activated transport, see Cell volume, regulation**

**Synaptosomes**

- enteric, VIP release from, regulation of, G568

**T**

**Tachykinins**

- antagonists, effects on colonic propulsion, G433
- gastric mucosal resistance and, G1017
- release from enteric nerves, regulation, G904

**Taurocholate**

- uptake in hamster hepatocytes, regulation by calcium-mobilizing agents, G1084

**Taurocholate transporter**

- sodium-dependent, alterations, in ethinyl estradiol cholestasis, G1043

**Thyroxine**

- effects on intestinal AE2 mRNA levels, during development, G330

**Transcription factors**

- AP-1, see Activator proteins, AP-1
- Cdx-2

- and lactase-phlorizin hydrolase gene expression, G707
- and sucrase-isomaltase gene expression, G707

**NF-LPH-1**

- and lactase-phlorizin hydrolase gene expression, G707

- and sucrase-isomaltase gene expression, G707

- Sp1, and hydrogen-potassium ATPase gene expression, G1104

**Transforming growth factor**

- TGF- $\beta$ , in restitution of guinea pig gastric mucosa in vitro, G75

**Transgenic mice**

- HIP/PAP protein production in, G993

**Trichinella spiralis infection**

- neural control of jejunal motility and ion transport in, G48
- in rats, effects of oral L-NAME during, G338

**Triglycerides**

- absorption and lymphatic transport of, after ileal transposition into upper jejunum, in rats, G681

**Triglycerides** (*continued*)

- long-chain, administration, effects on intestinal apolipoprotein, G322
- medium-chain, administration, effects on intestinal apolipoprotein, G322
- serum, and satiation after lipid meal, in rats, G438

**Trypsinogen**

- intrapancreatic activation, in secretagogue-induced pancreatitis, G20

**Tumor necrosis factor**

- TNF- $\alpha$ 
  - elevation in endotoxic shock, glycine feeding and, G97
  - expression during healing of acute colitis in mice, G130
  - induction of chloride and potassium secretion in human colon, G669
- LPS-stimulated release by rat Kupffer cells, endocytosis and calcium in, G920
- and nitric oxide synthase induction by INF- $\gamma$ , in hepatic sinusoidal endothelial cells, G260
- in sepsis-associated cholestasis, G137
- stimulation of gastrin promoter, G942
- unresponsiveness, in obstructive jaundice, G980

**Tyrosine kinase**

- in EGF-regulated intestinal transport function, G509

## U

**Ursodeoxycholate**

- uptake in hamster hepatocytes, regulation by calcium-mobilizing agents, G1084

## V

**Vagus nerve**

- afferent pathway, and cholecystokinin action on pancreatic secretion, G1
- gastric branches, and peripheral nerves, convergent inputs to single neurons of lateral hypothalamus, G858

**Vascular tone**

- in developing gastrointestinal circulation, nitric oxide and, G598

**Vasoactive intestinal polypeptide**

- in colonic propulsion, G433
- in modulation of duodenal alkaline secretion and motility, G582

## release

- endogenous opiates and, G524
- and nitric oxide formation, during gastric muscle relaxation, G357
- from rat enteric nerve terminals, regulation of, G568

**Vasoconstriction**

- of small mesenteric arteries, hypoxia/reoxygenation-induced dysfunction in, G820

**Vasodilation**

- neurogenic, of gastrointestinal submucosal arterioles, G223

**Vasopressin**

- regulation of bile acid uptake in hamster hepatocytes, G1084

**Visceral sensation**

- in hyperglycemia, G814

## W

**Wilson disease**

- ATPase activity in, G741
- copper transport in, G741

**Wound healing**

- in colitis, cytokine expression during, G130
